<i>microFIT</i> Project Description
--

Site Address		
Fuel Type	<input type="checkbox"/> Bio-gas <input type="checkbox"/> Landfill gas <input type="checkbox"/> Renewable biomass	<input type="checkbox"/> Solar photovoltaic (Solar PV) <input type="checkbox"/> Wind <input type="checkbox"/> Other Specify: _____

Nameplate Capacity	kW	Expected in Service Date:	
--------------------	----	---------------------------	--

<i>If the microFIT project is a Solar PV project:</i>	
Nameplate capacity of the Solar PV panels	kW
Nameplate capacity of the inverter	kW

Proposed Connection Method	<input type="checkbox"/> Directly Connected	<input type="checkbox"/> Indirectly Connected
		<input type="checkbox"/> In-series, or <input type="checkbox"/> In-parallel

<i>If Incremental Project – Existing Generating Facility Description</i>		
Fuel Type	<input type="checkbox"/> Bio-gas	<input type="checkbox"/> Solar photovoltaic
	<input type="checkbox"/> Landfill gas	<input type="checkbox"/> Wind
	<input type="checkbox"/> Renewable biomass	<input type="checkbox"/> Other
	Specify: _____	
Nameplate Capacity of Existing Generating Facility		kW
Combined Nameplate Capacity		kW
NOTE: Combined Nameplate Capacity (<i>microFIT</i> Project plus Existing Generating Facility) cannot exceed 10kW		

Signature: _____
(Account Holder)

Name: _____
(Printed)

Date: _____
